

Benjamin Ažman

Intern

Profile

Final year IT student at Faculty of Electrical Engineering, department of Computer Science and Informatics. My goal is to improve my technical skills as much as possible and gain knowledge in new areas of this field. I am a very ambitious person and I am guided by the fact that every day is a new opportunity to spread my knowledge. I am interested and like to work on quality assurance and frontend development. But as my main characteristic I would state the will and desire to cooperate with other people and my love for teamwork. I think that this is an important characteristic for this job and as it has brought me closer to people throughout my life, I think that it can bring me closer to colleagues and other people in this field, which would achieve my goal of further progress in the IT world.

Projects

ulaznice.com, Sarajevo

March 2022 — July 2022

Associated with Faculty of Electrical Engineering in Sarajevo.

My colleagues and I have started our very own startup business called ulaznice.com. Our goal is to create system that will sell and distribute tickets for various cultural and sports events. The technology by which we will determine access control is QR or regular bar-code. Work available on Linked-in profile.

Creation of a Smart Home System Prototype, Sarajevo

April 2022 — Present

Associated with Faculty of Electrical Engineering in Sarajevo.

My colleagues and I have been developing a prototype of a Smart Home System in the past period, for the needs of the subject "Embedded Systems". We created a system that sends data from various sensors via the WiFi network to the end user to an Android application that we designed ourselves. Work available on Linked-in profile,

Construction of network infrastructure at Medichem d.o.o., Sarajevo

September 2019 — November 2019

Due to the expansion of business activity, it was necessary to design a new network architecture of the company. The installation of new switches was performed, as well as the assignment of access rights, IP addresses and subnet masks to users. In conclusion, the entire business was migrated to the Office 365 system.

Extra-curricular activities

FITOP Table Official at FIBA, Sarajevo

July 2019 — Present

FIBA certificate for Table official business for International basketball games.

Fiba Statisticians at FIBA, Sarajevo

July 2022 — Present

FIBA certificate for statistics measurement business for International basketball games live TV broadcast.

Volunteer at FK Željezničar, Sarajevo

January 2022 — Present

Volunteer in membership department (Customer relationship management)

IT Equipment Maintenance at Medichem d.o.o., Sarajevo

September 2019 — Present

Maintenance of computers, network equipment and infrastructure.
